PLACER DREDGING

Salt Lake Combination Formed to Mine at Idaho Falls.

\$25,000 DREDGE ORDERED

STRIKE IN CARISSA-PROGRESS OF MAMMOTH DEAL.

As a result of Rasmus Hoff's presence in the city since Tuesday, a combination of Salt Lake capitalists, headed by Judge C. S. Kinney, has undertaken to supply the necessary means to provide a dredging plant capable of handling 3,000 yards of gravel per day with which to wrest the gold from the bars and banks of Snake river covered by the 380 acres of placer locations owned by Mr. Hoff at points above and below American

Falls.
All the lumber and most of the machinery has been ordered and the lumber is already on the road. The boat will be 120 feet long by thirty feet wide and power will be furnished by a 150-horse-power boiled and -a 125-horse-power engine. The equipment is to consist of a twelve-inch Morris sand and dredging purposets of shaking grizsist of a twelve-inch Morris sand and dredging pump, sets of shaking grizzly's, onto which the pump will discharge its sand, gravel and water and from thirty to fifty adjustable burlap concentrating tables 14x3 feet in size, on which the gold will be collected. These are the machines and equipment found, by long experience, to give the best results with the light, flakey gold of the Snake river and as similar

a similar plant, has been secured, and a very few weeks will see it in operation. It will cost about \$25,000.

Three other combinations are now preparing to build dredges, one is already in operation and Dr. Heinz, who had a dredge burn on the river last December, is also preparing to rebuild.

The outlook is, therefore, that no less than five dredging companies will he operating on the Snake in the vicinity of Idaho Falls this season. A great production of gold is sure to follow.

MAY DAY'S NEW MILL.

Part of the Machinery Now on the Ground.

MALAD VALLEY EXCITEMENT. Gold Found in Large Quantities Near

Portage.

(Malad Enterprise.)

Malad valley is enjoying a genuine old minit g boom at present and all is excitement. The dreams of our people for the past twenty years, of seeing railroads running through the valley-every little town illuminated with electric lights, the erection of manufacturing establishments and all such, is about to become a reality, through one of the most startling and richest discoveries ever made in the mining world. This new Eldorado, which surpasses in quantity and quality all the Ruffalo Humps, Cripple Creeks, Klondikes and Dewey railroads in existence, is located in the mountains east of Woodruff. They have actually struck the ledge where gold can be seen bulging out of the rocks in chunks as large as hen's eggs and a prominent mining man in Malad has one solid. seen bulging out of the rocks in chunks as large as hen's eggs and a prominent mining man in Malad has one solid mile of this ledge. No assays have yet been made to determine the proportion of the gold in the ore, because you can see it and there is a good to be a proposed. Fine ore is exposed you can see it and there is a good quantity in sight. Last Sunday night about 'hirty men were in the mountains all hight and we understand that one man actually run his horse down, but here first. one man actually run his horse down, being in such haste to get there first. There is some similarity in this ore and that of the Laky Boy, the ledge being in the same range of mountains and about fifteen miles distant from the Lucky Boy mine. We have talked with several, who say this is just the beginning of what will result in the opening up of some rich mines, and there is every indication that before long a large body of the hidden treasure will be uncovered, and then things

ure will be uncovered, and then things will fairly hum in Malad valley.

Pass gold mine, near Austin, Nev., came in from the west yesterday and registered at the Knutsford. The mine, he says, is looking splendid and the chances for the pending deal on the going through are very enouraging.

The gentleman reports that all kinds

the poet worked up

of excitement has been worked up over the discoveries made and being made in the new camp of Tonapaugh. From every man that he met the most glowing reports of its worth were obtained and Mr. Mitchell says it must be a wonderful district. be a wonderful district. Trains over the Carsen & Colorado railroad are dropping scores of men daily at Soda-ville and Candelaria, and the stages from those points are doing a big usiness carrying passengers over the intervening seventy-five niles. A gen-uine boom is on, the gentleman says, and from all accounts the camp war-rants it.

SMELTER TRUST ENJOINED.

Court of Appeals Reverses Lower Court's Decision.

Trenton, N. J., March 28 .- The court of errors and appeals this afternoon decided to reverse the chancellor's de-cision in the American Smelting & Re-

fining company's case.

Today's decision orders the issuance of at injunction restraining the Amer-ican Smelting & Refining company from taking any further action in the matter of increasing its capital stock or acquiring by purchase the property of M. Guggenheim's Sons, unless it shall be made to appear on final hearing that the stock to be issued for the purchase of the Guggenheim plant does not exceed the value of the property to be acquired by the purchase.

acquired by the purchase, he decision is looked upon here as of great significance with respect the incorporation of companies under New Jersey laws in the juture. The practice of acquiring properties and paying for it in stock has been very reneral, and heretofore it has not been the policy of the state to inquire into the value of the property purchased or the amount of stock issued on account acted.

of the purchase.

It is feared that the decision may have the effect of causing corporations to go elsewhere to become incorporated. although this view is not entertained by all corporation lawyers.

and will not interfere with an effective combination of the two interests on lines that are now being considered." Samuel Untermeyer of counsel for the company, said that in his opinion a consolication can be readily and lawfully effected under the laws of New Jersey without in any way conflicting with the decision and that he anticipates no difficulty on that point. In his opinion the decision will have far greater effect on the new companies that are organizing in New Jersey than upon this company.

CARISSA'S STRIKE.

Ore Body Opened on the 250-foot Level Yesterday.

The most welcome news that con-The most welcome news that con-nections had been made with the ore chute on the 250-foot level of the Car-issa was received by telephone from the mine by Manager Carey yesterday afternoon. That it would be struck there was little room to doubt, as a winze had followed it dow the greater portion of the distance from the 150 level.

bortion of the distance from the 150 level.

The Carissa and Spy mines, both owned by Messrs. H. E. Corey and Eben Smith, have been making a fipe record under the former's management, and now that connections in ore between the 150 and 250 levels is nearly accomplished, a still greater rate of production will shortly be entered upon and the shaft sent down to the 350 level,

brought 26c, while Tesora supped back to 26½c and Boss Tweed brought 11½c and 10½c.

Manhattan.went at 1%c and Yankee was secured at 25c.

The session closed on the following quotations:

The property is producing the fines grade of copper-gold ore coming from Tintie today, and adjoining propert owners are awakening to the fact the

ment found, by long experience, to give the best results with the light, flakey gold of the Snake river and as similar plants in the same section have proved highly successful Mr. Hoff and his associates have no doubt of their ability to make a big lot of money.

With the crudest kind of apparatus Mr. Hoff has been able to make an average clean-up of about 17 cents a yard and he is confident of increasing that from 25 to 50 per cent when the big dredge is placed in commission. It will not cost over 4 cents a yard to operate it, so 10 cents a yard profit, or \$300 a day, is a conservative estimate of what the plant will earn.

Mr. Hoff left for the north last night and Judge Kinney will go up tomorrow and see work on the big boat inaugurated. The services of a thoroughly competent engineer, who has had several years experience on the river with a similar plant, has been secured, and a very few weeks will see it in operation. It will cust about \$25,000. Kirby, superintendent of the Daly-West, went out to Tintic and the Mammoth mine last evening. That Messrs. Bamberger and Kirby have gone to examine the mine and note the progress that is being made by James W. Neill, who is sampling the property, there is no doubt. Neither is there any doubt that Mr. McIntyre has so modified the terms of his option that sufficient time to make a thorough examination and report will be accorded Mr. Neill. Mr. Neill.

The best of feeling exists between the Messrs. J. E. and Simon Bamber ger and Mr. McIntyre and as the latte have shown that they mean business the prospects for a deal being consum mated look brighter as the days go by

Ground.

Manager John A. Hunt of the Ma Day returned from the mine Wednes day night, highly pleased with th

has been reached. Fine ore is exposed from top to bottom and cross-cutting and drifting has already commenced.

and drifting has already commenced. Another carload is on the dump awaiting shopment. Colonel Pickett expects to leave for a two or tiree weeks trip to the mine

EXPERTING THE ROSEBUD. Park City Property That May Soon be Sold.

MINING STOCK EXCHANGE

MINING STOCK EXCHANGE.

May Day and Ben Butler Advanced Sharply Yesterday.

Sharply Yesterday.

The features of yesterday's call on change, when 53,335 shares sold for \$22,-688.25, were the sharp advances of Ben Butler and May Day, the steady climbing upward of Northern Light, Mammoth and Dalton & Lark.

Ajax was weak and declined 34c during call. Dexter was also off and Star Consolidated hit the 60c slot with a thud.

Lower Mammoth recovered from its slumping condition and sold up to \$4.41, while Sacramento showed gaining strength as well.

Sunbeam sold at 36c and 37c, Sunshine brought 26c, while Tesora slipped back 35.74c.

Bulls Control Situation on the New York Exchange.

RAILROADS ARE STRONG

NEW JERSEY COURT DECISION

AFFECTS SMELTING SHARES.

Northern Pacific preferred and the report still persisted of an agreement of a consolidation of Northern Pacific and Burlington.

The course of the steel stocks upon the United States Steel corporation stocks' entry into the unlisted department of the exchange were a strengthening influence. Although there was a large selling to realize in these stocks, ample support was forthcoming, and the common was run up 2 points over yesterday's price on the curb, and the preferred rather more than that. The stocks of constituent companies were strong in sympathy, the common and preferred stocks all rising from 2 to 8%.

There were other points of special strength, such as Western Union, Manhattan, the Wheeling & Lake Erie stocks, showing gains of from 2 to 3%, and Lackawanna, which mounted 9 points to far above the highest preceding price. Ourside of these individual stocks there were few that rose at any time as much as a point over last night, and many of the recently prominent stocks were constantly held back by the pressure of realizing. The rubber stocks reacted widely from yesterday's advance, the common losing 2% and the preferred 4%.

In the last half hour of the market on the decision of the New Jersey court of appeals, in favor of the plaintiffs in the suit to enjoin the absorption of the Guggenheim interests, the smelting stocks broke violently, the common falling to 6% and the preferred 5% below last night's level. This helped to unsettle the close, which was also affected by the large profit-taking sales.

Discussions of the money market outlook continue in view of the coming quarterly settlements and the uninterrupted drain by the subtrensury. Starling exchange also recovered today, renawing the apprehension of gold exports.

Business in bonds continues large and new points of strength develop from time to time. Total sales, \$5,665.000. United States old 4s registered advanced ½ per cent on the last call.
